PRESSUREMATIC AIR BAGGER

MODEL 4213

Hheavy-duty gross weigh air bagger for filling valve-type bags with granular or free flowing materials.

DESIGN FEATURES:

- Standard units: (shown) with load cells and electronic controls. (not shown) with scale beam.
- Speeds up to (10) 50# bags per minute
- Accuracy of +/- 1/2 of 1% (load cells) or 1/2 of 1% (scale beam) obtainable with good product flow and consistent bulk density.
- 20# to 110# weight range on bags
- Available with #304 or #316 stainless steel with foodgrade welding and polish (when required) on all contacting surfaces.
- All electronic scale component parts meet handbook 44 specifications.

NOTE: Testing may be required to determine obtainable speeds and accuracies on your product.
