

Leaders in Separation Technology

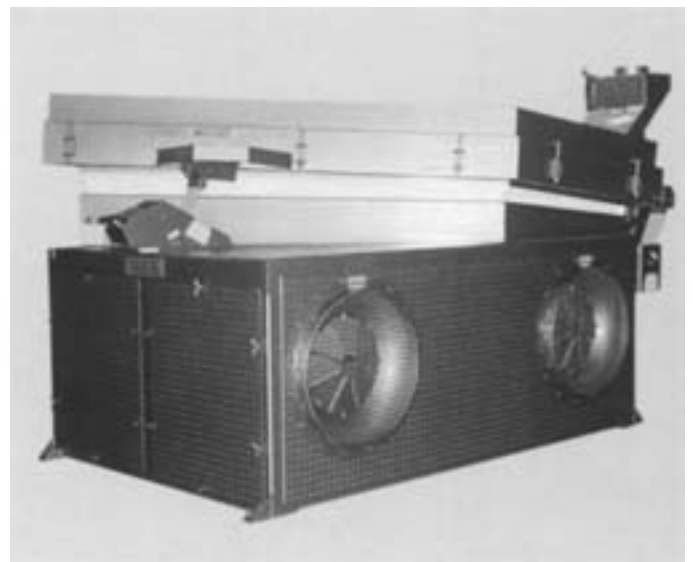

Model 220-P

Pressure Gravity Separator

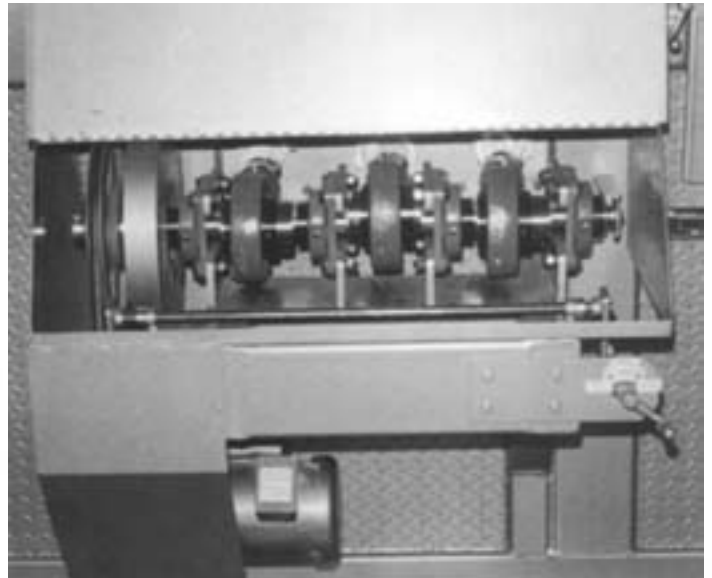

Unique features include:

- External drive assembly
- All steel, durable construction
- Counterbalanced eccentric drive for quiet, vibration-free operation
- Dual internal fans for more exact air control and optimum performance
- Less HP requirements *7-1/2 HP used on small grains; larger, heavier products may require 10 HP*
- Easy deck removal for cleaning or changing
- Greater capacity
