

Westrup equipment tailored for industrial grain conditioning

The New Westrup AS-1500 Pre-Cleaner for Grains

Westrup is proud to introduce the new AS-1500 machine for pre-cleaning grains. The standard features are:

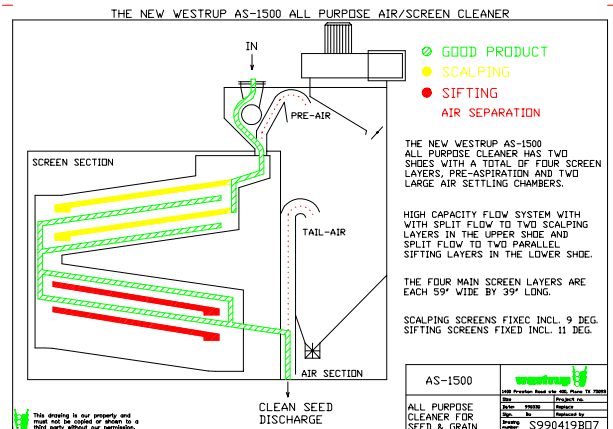

- Custom made steel channel frame with two counterbalanced shoes and a total of **four screen layers** each 59" (or 39") wide by 39" long. The total screen area is 64 square feet
- 6.4" diameter steel feed roll with fixed speed drive and adjustable feed gate with brush seal (AS-1000 Model has feeding apparatus with weight-loaded chute)
- Aspiration system with pre- and final air, two settling chambers with inspection windows and right side discharge cull conveyors, calibrated air valve controls, false air valve and top mounted fan with 4 hp motor
- Eccentric drive with heavy duty bearings and 2 hp motor with fixed speed

Westrup AS-1500: With four screen layers and an efficient air system, it is the perfect machine for pre-cleaning grain at small/medium sized operations.

High Capacity Screen System

The machine offers a high capacity flow system rated at up to 1,500 bph pre-cleaning most grains. With split flow to two parallel scalping layers in the upper shoe and split flow to two sifting layers in the lower shoe. The screens are easily removed from the side of the shoe.

High Capacity Flow Pattern: Shown with split flow to two parallel scalping layers in the upper shoe and split flow to two parallel sifting layers in the lower shoe. The machine is available in two different widths depending on capacity requirements.

Westrup Optional Features

The AS can be equipped with the following options:

- Vibrator feeder with adjustable vibration control
- Quick change screen access doors
- Steel lined screen tracks with rubber seal
- Inverter drives for eccentric and feed roll
- Larger heavy duty fan with 5 hp motor

Your new machine will be backed by one of the world's leading manufacturers of grain conditioning equipment. Over the past 40 years we have installed our machines in more than 100 countries. Our machines are known for their **flexibility, reliability and high capacity**.

HAND IT OVER TO WESTRUP, YOUR WORLDWIDE INNOVATOR IN GRAIN CONDITIONING.
