GNL-6500	36.8	2.8	20	7600	49	3200	8200	60	3650	10000	67	6600
GND-6500	38.7	2.8	20	7600	49	3200	8200	60	3650	10000	67	6600

The NAVCO GNL model vibrator is used with a bracket for portability, making it easy to move to different forms. The GND vibrator has a bolt-on base for permanent mounting. A channel iron stiffener should always be used to distribute vibration evenly. Vibrators should be mounted vertically, with an upwards rotation to force air to the surface of the form.
