

Leaders in Separation Technology

Vacuum Gravity Separator

The Forsberg Vacuum Gravity Separator has a reputation of being the most accurate and efficient dust-free separator available! This is made possible due to the absolute control of three essential elements:

- Air flow
- Speed of vibration
- Deck differential action

The vacuum gravity air system assures a complete and accurate product density classification from the very lightest to the very heaviest.

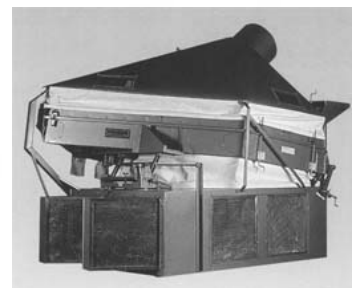

The easy to adjust divider blades provide unlimited control of the discharge product.

Forsberg Gravity Separators are constructed of high grade steel which provides years of trouble-free performance. All the Forsberg Gravity Separators include unique, counterbalanced, eccentric drive for quiet, vibration-free operation.

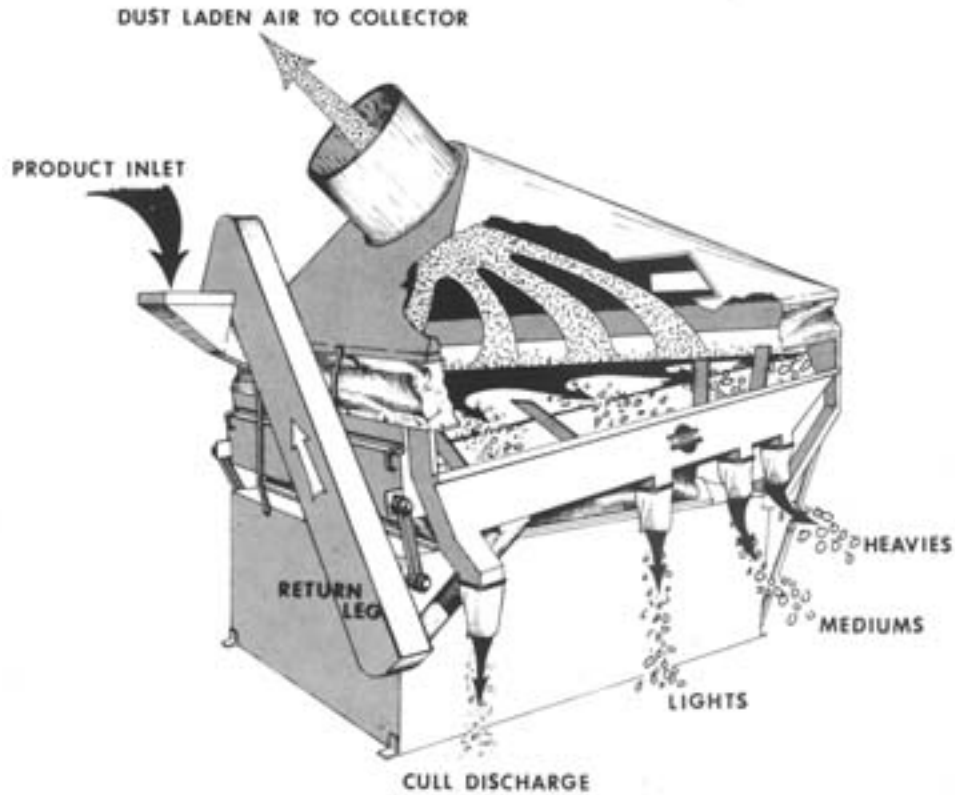

Numerous options and modifications are available to meet the stringent needs and demands of each customer in all industries.

Model 50-VMS

Model 50-VMS with optional filter unit

Specifications

MODEL	WEIGHT	FLOOR SIZE	HORSEPOWER	DECK SIZE
TKV-25	1065 lbs. (483 kg)	54 x 51 in.	Drive: 1 HP Fan: 5 to 7.5 HP	5.3 sq. ft.
40-VMS	1100 lbs. (499 kg)	52 x 92 in.	Drive: 1 HP Fan: 5 to 10 HP	11.6 sq. ft.
50-VMS	1400 lbs. (635 kg)	64 x 106 in.	Drive: 1 HP Fan: 15 to 20 HP	19.0 sq. ft.
90-V	3100 lbs. (1406 kg)	78 x 123 in.	Drive: 2 HP Fan: 25 to 50 HP	29.5 sq. ft.
250-V	3900 lbs. (1769 kg)	85 x 139 in.	Drive: 3 HP Fan: 50 to 75 HP	37.3 sq. ft.
300-V	4200 lbs. (1970 kg)	89 x 100 in.	Drive: 3 HP Fan: 50 to 75 HP	41.6 sq. ft.
